Dear Valued Customers and Partners,

Welcome to Metron, one of the leading companies worldwide, where we have been driven by our vision to elevate people's quality of life by offering safe lifts and accessibility solutions for everyone.

Today, I want to extend my sincere gratitude to each one of you for being an integral part of our journey. Over the years, you have played a crucial role in installing our lifts and parts in various buildings and spaces, ensuring that they operate seamlessly and safely.

At Metron, we place great emphasis on building strong relationships with our customers. Our goal is to be more than just a supplier of elevators but to be a trusted partner that invests in your growth and development, empowering you with the tools and resources you need to excel in your business. We are committed to providing you with the latest training, technologies, and support, enabling you to reach your full potential. Your success is our success, and together, we will continue to grow.

As we move forward together, I assure you that our commitment to quality, safety, and innovation remains strong. All together, we work towards a common goal, to offer lifts that are not just means of transportation but symbols of reliability, efficiency and design, like values that Metron stands for. Reliability as product, as people, as company.

With deep appreciation and warm regards,

John Sandros
Chairman of the Board

An Upward Journey

- **2025** A bold step into the future: €8 million invested in **next-generation mechanical equipment, robotic systems, and advanced software**. To support this growth, we're **expanding our factory by 3,000 sq.m.** laying the foundation for even greater innovation.
- **2024** We strengthened our footprint in Greece with **new offices and showroom in Thessaloniki** and made a powerful entrance into the **German market**, opening two new branches.
- **2022** Metron unveils the **UX Series**, a new generation of elevators designed for easy, fast and user-friendly installation.
- **2021** Proudly recognized as a **Greek Business Champion of the Decade (2010–2020)**, a prestigious award that reflects a decade of dedication, resilience, and sustainable growth.
- **2020** Metron invests in state-of-the-art **laser equipment**, ensuring precision, efficiency, and top-quality results in production.
- **2017** Metron solutions are now trusted in **over 50 countries across 5 continents**, a testament to the strength of our vision and partnerships.
- **2014** We lay the groundwork for the future with our **digital transformation**, integrating smarter systems and data-driven processes.
- **2012** A milestone for Metron as it opens its **1st international office in Poland** and our **1,000th complete lift solution** is delivered, solidifying our position as a trusted player in the market.
- **2010** Metron introduces its **1st traction lift**, expanding its technical capabilities and responding to market demands with precision.
- **2009** A major step forward: we expand our factory and invest in **fully automated production lines**, driving both capacity and accuracy.
- **2008** Metron designs its **1st hydraulic lift**, opening a new chapter in product innovation.
- **2005** Our product range grows to include the **design and production of Lift Cabins**, adding another vital piece to our competitive advantage.
- **2003** Metron takes a strategic step forward with the opening of our **Athens office** to better serve our customers in South Greece.
- **2001** We revolutionize the elevator industry by introducing **powder coating colors**, offering durability and aesthetic excellence.
- **2000** A milestone in our journey: the **completion of Metron's new factory**, a hub of creativity and engineering.
- **1996** Early innovation shines through as we focus on **Automatic Lift Doors**. Our **1st Folding BUS-type Door** rapidly gains traction, becoming a market favorite.
- **1995** Metron was officially **founded by John Sandros**, driven by a clear vision: Engineering for a better life.

VISION

We envision a strong team of employees and partners around the world who together enjoy professional growth and personal development, winning in a fair play within a competitive framework.

MISSION

We aim to upgrade the quality of life, offering mobility and access through safe lift solutions to everyone. At the same time, we design and produce user-friendly products that simplify the work and optimize the productivity of our customers.

We provide our customers with complete lift solutions and parts of:

- High level of Reliability & Quality
- High Aesthetics according to the modern Architectural Trends
- Flexibility in Design
- Easy & Quick Installation
- Advanced Technology

What we stand for

VALUES

PEOPLE

Our people are the backbone of Metron. We are proud to work together as a team to achieve our common goals. We are the collective sum of the talents and skills of all our people.

INTEGRITY / HONESTY

For us, success is attained with integrity, honesty, transparency, justice, meritocracy. We maintain a spirit of cooperation with our partners and employees based on mutual trust and the highest professional standards. We deeply understand that our success goes hand in hand with your success and we care about your future as much as we care about our own.

CREATIVITY

We support creativity and innovation by encouraging the development of new ideas. We challenge ourselves, redefine boundaries and constantly look for new ways to improve our products, services and processes. An endless journey of creativity that leads us to a future of high standards.

Engineering for Life

At Metron, we design & produce user-friendly & technologically advanced complete lift solutions that create value to our partners & customers.

#EngineeringForLife

Metron +
Engineering for Life

At Metron, we strive to be environmentally friendly in our everyday operations by implementing programmes to improve our eco footprint, optimise energy & raw material management, promote recycling and a lifestyle that supports the circular economy.

Our Solutions & Products

Reinforce your competitiveness

Today, Metron stands among the world's leading companies in the design and manufacturing of complete elevator solutions and components.

OUR SOLUTIONS & PRODUCTS

- Machine Roomless Traction Lifts (MRL)
- Traction Lifts with Machine Room (MR)
- Hydraulic Lifts
- Home Lifts
- Metallic Shafts
- Car Lifts
- Small Cargo Platforms
- Service Lifts (Dumbwaiters)
- Escalators & Moving Walks

All Metron solutions are designed for new installations as well as modernization projects, ensuring flexibility, safety, and long-term reliability.

APPLICATIONS

Our elevators and mobility solutions are recommended for:

- Hotels
- Commercial & Public Buildings
- Industrial Buildings
- Residential Buildings
- Private Villas
- Hospitals & Healthcare Facilities
- Accessibility Projects

MACHINE ROOMLESS TRACTION LIFTS (MRL)

Metron Machine Roomless Traction Lifts (MRL) combine cutting-edge engineering, advanced electronic systems, and contemporary design to deliver superior vertical mobility. These elevators are specifically designed to provide high-speed travel, exceptional ride comfort, and reduced energy consumption, ensuring both operational efficiency and long-term sustainability.

By eliminating the need for a machine room, they offer significant space-saving advantages, making them the perfect solution for multi-floor residential complexes, office buildings, shopping malls, and other high passenger traffic environments where reliability, performance, and aesthetics are equally important.

Metron MRL elevators are built to meet the strictest European safety standards, while offering flexibility in design and shaft adaptability, ensuring seamless integration into any architectural project.

Key benefits:

- Easy installation
- Eco-friendly – Low energy consumption systems
- Outstanding ride quality and smooth operation
- Precise leveling accuracy according to the EN81-20 standard
- Space saving (doesn't require machine room)
- Advanced technology & state-of-the-art electronics
- High quality aesthetics
- Compatibility with the full range of Metron Cabins & Doors
- Adaptability to shaft dimensions
- Conformity with the European Standards EN 81-20, EN 81-50, EN 81-21, EN 81-70, EN81-73, EN 81-28 and EN81-58

UX SERIES | Engineered to be easy

A testament that we've placed the installer at the center of our attention, addressing your needs and optimizing the installation process. Now, installation becomes even more friendly, a hassle-free experience that allows you to save time and effort.

TRACTION LIFTS WITH MACHINE ROOM (MR)

Metron Machine Traction Lifts (MR) are designed to offer quality, operational excellence and enhanced functionality.

Key benefits:

- Easy installation
- Low maintenance cost
- Reduced energy consumption and installed power by using of VVVF drive
- Precise leveling accuracy according to the EN81-20 standard
- Outstanding ride quality & smooth operation
- Adaptability to shaft and machine room dimensions
- Specialized solutions for modernization projects
- High quality aesthetics
- Compatibility with the full range of Metron Cabins & Doors
- Conformity with the European Standards EN 81-20, EN 81-50, EN 81-21, EN 81-70, EN81-73, EN 81-28 and EN81-58

HYDRAULIC LIFTS

With their exceptional reliability, Metron Hydraulic Lifts are the ideal choice for any type of building up to 8 floors. These lifts provide high flexibility as they are designed to fit in standard industry shaft sizes or can be configured to your custom building requirements.

Key benefits:

- Easy installation
- Low installation cost
- Low maintenance cost
- Low energy consumption in Standby Mode
- Electronic Valve: Self-teaching without any adjustments
- Smooth & reliable operation
- Optimum space efficiency | Maximum cabin size in a standard shaft
- Adaptability to shaft dimensions
- High quality aesthetics
- Compatibility with the full range of Metron Cabins and Doors
- Conformity with the European Standards EN 81-20, EN 81-50, EN 81-21, EN 81-70, EN81-73, EN 81-28 and EN81-58

Home lifts HABITAT

A special Lift Solution for your home

HOME LIFTS | HABITAT

Designed to enhance people's lifestyle, Habitat offers safety and mobility freedom. Thanks to its unique design flexibility and its dimensions, it is the ideal solution for any modern house. Combined with the elegant Metron cabins, it brings bold design to life.

Key benefits:

- Easy installation
- Low acquiring & installation cost
- Ideal solution for low pit and headroom shafts
- Optimum space efficiency | Maximum cabin size in a standard shaft
- Prewiring & single-phase power supply
- Modern aesthetics
- Compatible with the full range of Metron Cabins
- Certified according to Machine Directive 2006/42/CE

HABITAT MACHINE DIRECTIVE

LOAD	300 - 400 kgr
MAX. SPEED	0.15 m / sec
MAX. TRAVEL	12000 mm
MAX. STOPS	5 stops
MIN. PIT	120mm
MIN. HEADROOM	2600mm

For specifications out of the range above, please contact Metron.

A low-angle, upward-looking photograph of an elevator shaft. The shaft is enclosed by glass panels supported by a metal frame. A thick, dark metallic shaft runs vertically through the center, with several cables attached to it. The lighting is bright, creating reflections on the glass and metal surfaces. A semi-transparent grey box with a yellow border is overlaid on the left side of the image, containing the text 'Metron Metallic Shaft'.

**Metron
Metallic Shaft**

METRON METALLIC SHAFT

The best-in-class design of a Metron Metallic Shaft transforms a structural building element into a high aesthetic architectural feature. Ideal solution for both internal and external installation, in houses, maisonettes or commercial buildings with few stops where space is limited, or no elevator shaft is available.

Key benefits:

- Easy installation
- Excellent resistance & endurance to the harshest conditions
- High design flexibility & customization according to customers' needs
- World-class design ensures aesthetic harmony with the existing building
- Powder-coating in the range of Metron Colours Collection
- Variety of cladding: metal sheet painted in Metron Colours or glass
- Compatible with every Metron's complete system of MRL Traction & Hydraulic lifts

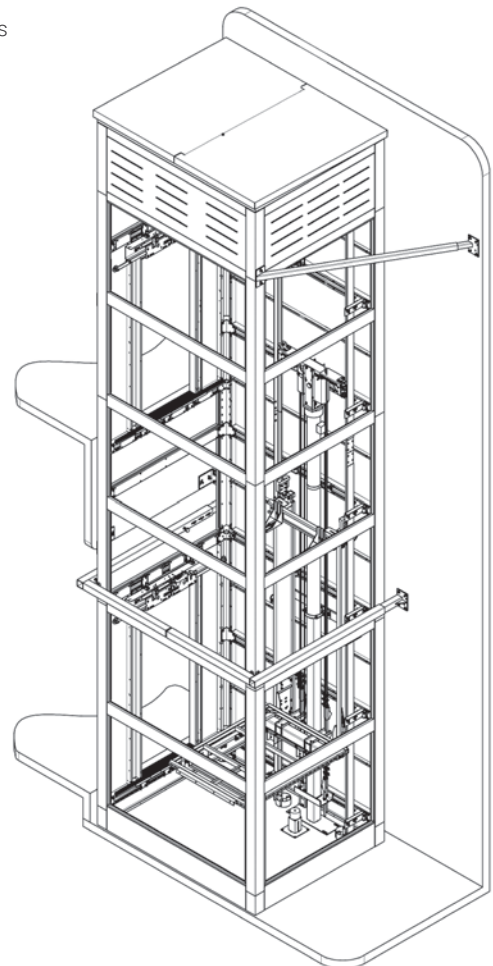

*Compatible with MRL-G UX, MRL G Starter, MRL G LPH
According to EN81.21, MR Geared, MR Gearless, Hydraulic Lifts

RANGE OF APPLICATION

LOAD	Up to 800kgr (10 persons)
MAX. TRAVEL	12000mm
MAX. STOPS	5 stops
MAX. EXTERNAL SHAFT DIMENSIONS	1800x2000 (WxD mm)
MIN. EXTERNAL SHAFT DIMENSIONS	1140x1160 (WxD mm)
MAX. HEIGHT OF STRUCTURE	16000mm

For specifications out of the range above,
please contact Metron.

*At least one supporting wall is required

Car
Lifts

CAR LIFTS

A Metron Car lift is engineered to handle a wide range of loads, from heavy machinery to vehicles making the most of your space with our space-saving designs. Our lifts are designed to perfectly match your requirements and fit into various environments while maximizing efficiency.

Perfect for an industrial facility, a business premise, a warehouse, a logistic company, a supermarket, or any place as they boost business productivity.

Key benefits:

- Customised to project's requirements
- Enhanced reliability
- Cost-effective solution
- Easy and safe entry / exit of load
- Conformity with the European Standards EN81-20 & EN 81-50

RANGE OF APPLICATION

LOAD	2500 - 3500 kgr
MAX. SPEED	0.15 – 0.30 m/sec
MAX. TRAVEL	12000 mm
MAX. STOP	5 stops
MIN. PIT	1300 mm
MIN. HEADROOM	3600 mm

For specifications out of the range above, please contact Metron.

Small Cargo Platforms

SMALL CARGO PLATFORMS

Metron Small Cargo Platforms are the smart solution to effortlessly handle your cargo with ease saying goodbye to heavy lifting and stairs. Made of high-quality materials and precision engineering, they are built to last, ensuring long-term performance, even under the hardest conditions.

Our Small Cargo Platforms are engineered to optimize space, improve productivity and reduce manual labor while delivering maximum functionality.

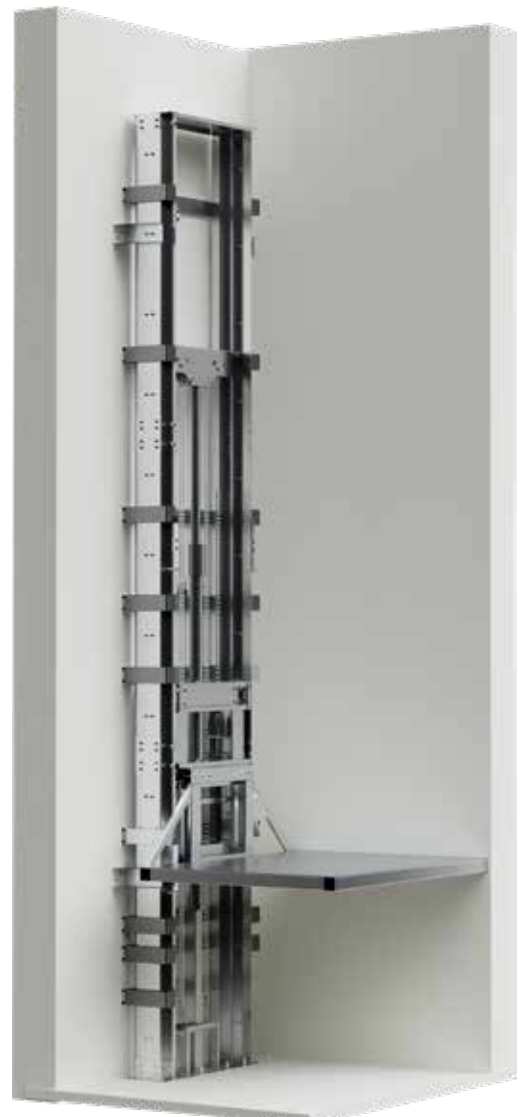

Key benefits:

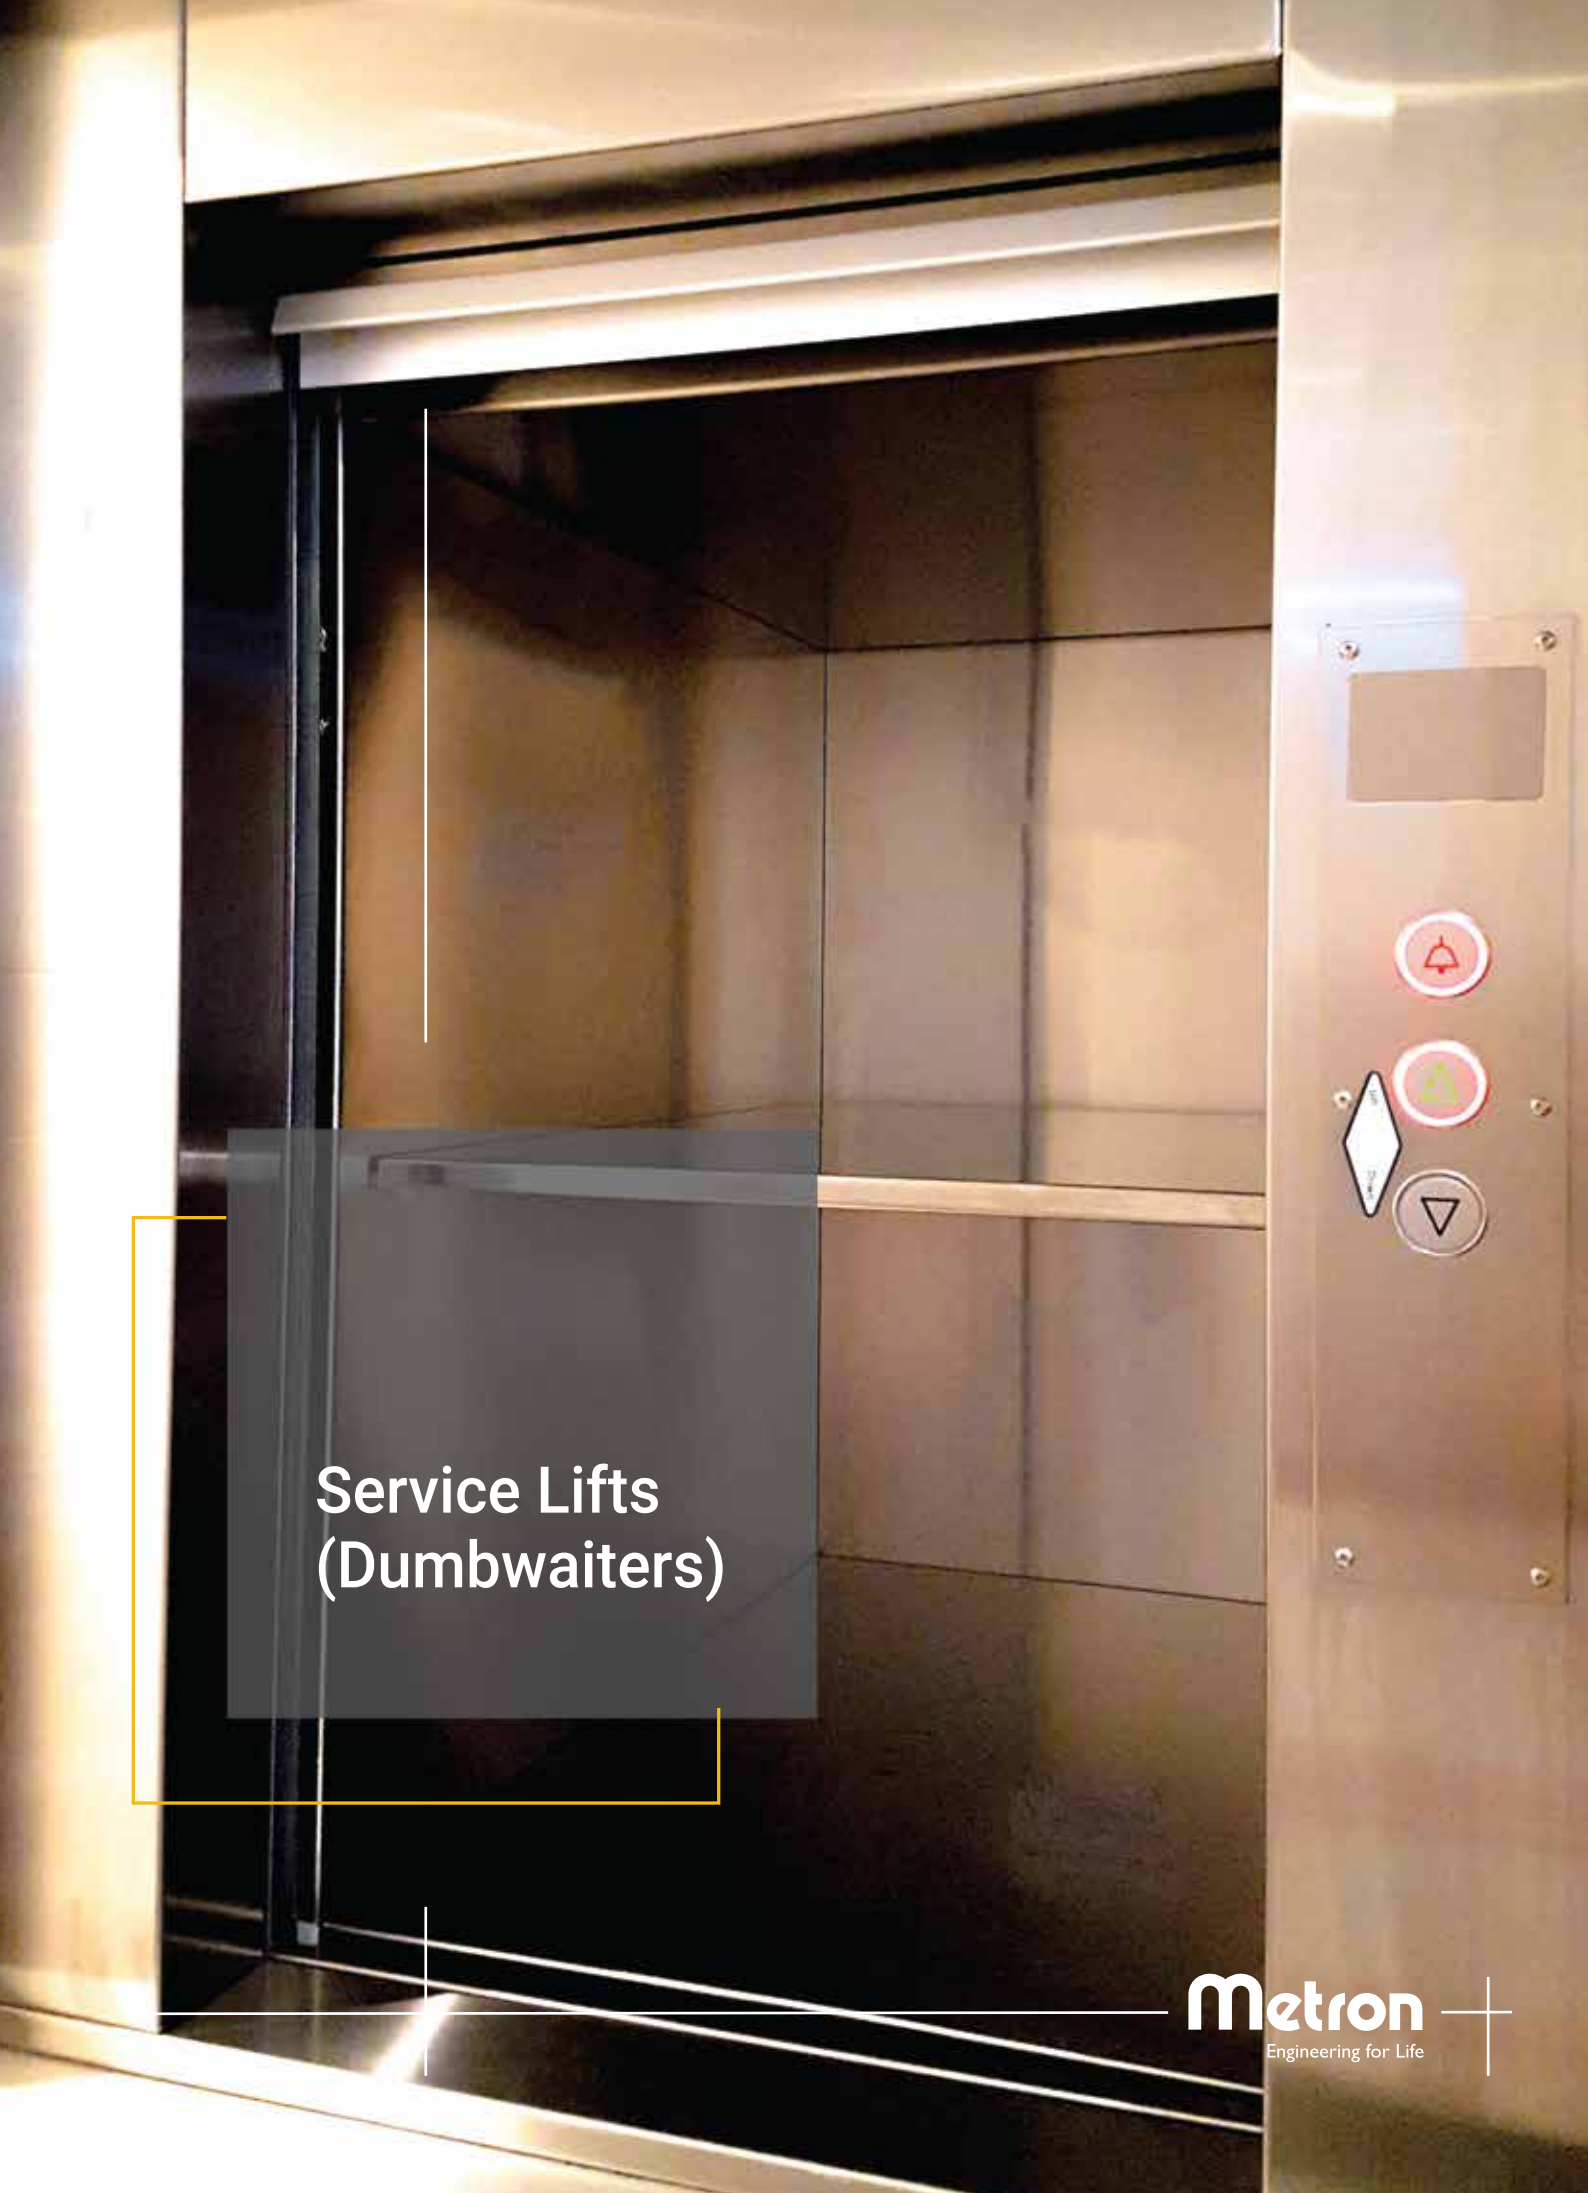

- Easy & low cost installation
- Custom design
- High quality construction
- Increased safety level
- Fast delivery
- Certified according to Machine Directive 2006/42/CE

RANGE OF APPLICATIONS

LOAD	500 or 1000 kgr
MAX. SPEED	0.15 m/sec
DIMENSIONS	1800 x 1400 (W x D mm)
MIN. PIT	150 mm
MIN HEADROOM	2000 mm
MAX. DISTANCE BETWEEN BRACKETS	4000 mm
SUSPENSION TYPE	2 chains

For specifications out of the range above, please contact Metron.

The image shows the interior of a service lift, also known as a dumbwaiter. The walls and ceiling are made of polished, reflective metal panels. A horizontal metal bar is visible across the middle of the lift. On the right side, there is a control panel with several buttons: a red bell icon, a green triangle icon, a white diamond icon with a black border, and a black triangle icon. A small rectangular display screen is located above the buttons. The lighting is warm and comes from the left side, creating a bright glow.

Service Lifts (Dumbwaiters)

SERVICE LIFTS (DUMBWAITERS)

Metron Service Lifts are designed to effortlessly transport items between floors, saving you time and energy. No more carrying heavy loads! They perfectly combine high-quality materials with compact design to save space and safeguard smooth operation. As every space is unique, they are customizable to fit your specific needs.

Service Lifts are usually used in hotels, restaurants, cafes, offices, warehouses, houses as they optimize workflow, enhance productivity and minimize downtime.

Key benefits:

- Easy & quick installation
- Flexible & compact design
- Lifelong reliability
- Practical operation
- Compliance with Machine Directive 2006/42/CE & EN 81-30

Escalators &
Moving Walks

ESCALATORS & MOVING WALKS

Embrace effortless mobility with Metron Escalators & Moving Walks. They are designed to provide a smooth and comfortable experience optimizing pedestrian flow in bustling commercial centers or transportation hubs and enhancing urban mobility in metro stations, airports, and other public transit facilities, reducing commute times.

Our Escalators & Moving Walks are equipped with the latest safety features for worry-free travel as safety is always at the heart of our products. Additionally, they incorporate advanced technology for improved energy efficiency and performance.

Finally, they can be customized to suit your specific architectural and functional requirements to create a unified aesthetic result with the ambience of any space, both indoors and outdoors.

Key benefits:

- Easy installation & maintenance
- Flexible & outstanding design
- Long-term reliability
- Energy efficient solution
- Upgraded safety features
- Excellent user experience
- Compliance with European Standards EN115-1

Design to Inspire

For Metron, elevators are more than just machines that move. They are the place where your vision lives. Let yourself be inspired and create together with us, an elevator truly yours.

POWDER COATING COLOURS DEPARTMENT

The 1st Company that introduced Powder Coating Colours in Elevators

At Metron, we understand that the perfect finishing can make all the difference in elevating your space's aesthetics. That's why we take great pride in our Powder Coating Colors Department, where we offer a stunning array of colors to bring your elevator's design vision to life! Today, we own **one of the biggest Powder Coating Departments in Europe** with a **fully automated 300 meters production line** which ensures increased production capability, tremendous flexibility, precise control and unmatched quality over time.

As pioneers in colours technology with long life experience in lifts, we set the benchmark for elevators' visual appeal, inspiring others to follow in our path of excellence. Our bold designs that stand out, our elegant and sophisticated colours palette, textures and shapes that suit any taste, open a world of possibilities for architects, designers, and building owners to unleash their creativity and customize elevators to perfectly align with the space's ambiance.

Get inspired, unleash your passion to create a lift truly yours!

Cabin Series

Discover the high quality and refined aesthetics of Metron cabins that will impress even your most demanding customers. Their design combines the elegance of superb materials and colors with utmost safety and comfort, creating an environment that upgrades any space.

LIFE DESIRE

Luxury climbs to the next level in this stunning cabin series with beautiful decorative components that elevate the design of a space. Featuring cutting-edge elements, these "diamonds" add a touch of splendor to your lifestyle.

CITY LIFE

Cabins from City Life Series constitute the perfect preamble to minimalism and essentialism. Robust structures which ensure durability over time, pared down to their essentials, extended lines and seamless surfaces that highlight the geometry and purity of each lift.

LIFE SHINE

Life Shine cabins offer an impressive appearance that will make a long lasting and unforgettable impression to every passenger. From durable inox materials to meticulous craftsmanship, we ensure that every detail is thoughtfully designed to withstand the test of time adding glamor and shine to any space.

PURE LIFE

Step into a world of unparalleled elegance and breathtaking views with our panoramic cabins. Whether you're looking to create a luxurious vacation retreat, a private villa, or an architectural masterpiece, our panoramic cabins are the epitome of elegance and grandeur. Designed to redefine your experience of space and beauty, our Pure Life cabins offer a seamless blend of purity and allure that elevates elegance to new heights.

More than just a Supplier

We always go beyond expectations as we empower our customers offering them the right tools. We aspire to be your partners for tomorrow's solutions.

#MoreThanJustASupplier

More than Just a Supplier

At Metron, we believe in going beyond the traditional supplier role. We aspire to be your trusted partner as we go the extra mile to add value and make a real difference in your projects.

We strongly believe that succeeding together can only be achieved through building solid relationships and understanding your needs and requirements.

Our global presence, allows us to serve customers worldwide, bringing our lifts and parts to diverse cultures and environments. Therefore, we have the competencies, expertise and authority to meet the extensive demands of a project. Our competitive range of products and services, enable us to make win-win synergies with our customers and propose solutions that stand the test of time.

Our team of skilled engineers, experienced designers, and technicians, ensures that your projects are executed with precision and excellence, from start to finish. As your partner, we empower your success by delivering top-quality products, comprehensive expertise, reliable support, timely deliveries and exceptional customer service throughout the project lifecycle.

Furthermore, our commitment to innovation drives us to continuously explore new technologies and invest in cutting-edge technologies. To make sure you stay in the lead, Metron empowers you with smart powerful digital tools to achieve your goals more easily and simplify your everyday life. Tomorrow is here today, and we go hand in hand with you to offer support for the future challenges more proactively, effectively, and efficiently.

Think ahead, See beyond.

Elevate Your Experience with Our Online Configurator!

A smarter future
together

A technologically advanced tool adjusted to your personal specifications, integrates with information, analyzes data, gives you optional solutions to ease your decision making and accurately calculates your lift price in a second.

Now, you can get your lift offer at any time and day – whenever suits you. An instant solution to maximize your comfort as you can be connected wherever you are and work with no distractions.

A smarter, more effective way that powers your performance

- Modern User-friendly Design
- Easy Navigation
- Fast & Accurate Calculation
- 24/7 at your Service

Forth IoT

Bringing the tools of
the tomorrow, today

FORTH is an innovative IoT solution born to break the limits allowing you to get the maintenance of your lifts at your fingertips.

Discover FORTH and enjoy the freedom that advanced technology offers you to:

- **Be in front of your lifts' control panels remotely.** Virtually access the control panel from anywhere, be right in front of it, even when you are far away to deliver care instantly without any problems (reset system, access and change parameters of the control panel).
- **Access to Metron service.** You have the choice to do any installation and service hand in hand with us as it enables our experts' team to remotely assist you, configure your lifts, consult, and recommend solutions for quicker and more accurate diagnosis.
- **Monitor your lifts' fleet 24/7 at real time.**
- **Detect any fault** even before the user notices it.

Your key benefits, connecting to FORTH:

- save time
- minimize costs
- reduce trips
- impress your customers' expectations by transforming an elevator into a smart machine.

FORTH collects all the important statistics, activities, and performance data of your connected lifts and displays them in a user-friendly dashboard.

#GrowTogether

Enhancing the power
of knowledge

At Metron, we believe in collective growth. As you grow, so does Metron, and together, we thrive. Therefore, we organized the initiative #GrowTogether to build an interactive communication channel with you.

#GrowTogether is a blend of webinars and onsite training sessions with dynamic presentations, live Q&A sessions, and interactive elements that ensure an enriching learning experience. Each workshop caters to learners of all levels ensuring you can apply new skills immediately to achieve real-world results. However, we can offer you custom training that aligns with your unique interests and learning objectives allowing you to gain practical experience.

All workshops are hosted by Metron people, who provide you with the latest tools and techniques to excel in your business, share successful practical tips and invaluable insights into the best practices.

Customer Service

Technical experts,
trusted advisors

We bring together experts with different backgrounds and complementary skills, united by their passion for their work. Our customer service team consists of highly skilled technical experts who are equipped with the knowledge to troubleshoot any challenges and offer tailored solutions.

Dedicated to your success, we provide exceptional customer service that goes beyond the ordinary. We're not just here to solve problems; we're here to build a lasting partnership. Our customer service team is committed to understanding your unique needs, offering personalized guidance, and ensuring your satisfaction every step of the way.
